

BERNARD CONTROLS ON SITE SERVICES

**BERNARD[®]
CONTROLS**

Invest in Confidence

> Your partner on site

Commissioning electric actuators requires specific and careful expertise. That is the reason why our specialists are available to provide the adequate support to our customers. Thanks to a wide international presence, our technicians are available everyday to quickly go on site.

Caring about your needs and constraints and relying on decades of experience our teams can perform on Site Surveys, Troubleshooting, Installation and Commissioning, Repair damaged or deteriorating Assets, as well as retrofitting and upgrading of site such as:

- > Upgrading of Manual Valves to become an MOV (Motor Operated Valve)
- > Upgrading of Electric Actuator Control Systems to provide additional Plant Optimisation

- > Upgrading of Existing Electric Actuators
- > Upgrading of Existing Electric Actuators to provide additional Monitoring for AMS (Asset Management Systems)

Global partner, always by your side

Global presence, local support

Reliability, availability and responsiveness are the key patterns that turn sales contacts into close trusting relationships. BC's global Group organization aims at building up this kind of relationships, thus enhancing customer service and satisfaction.

New processes combined with this organization enable improved response time and appropriate technical & commercial solutions to market needs.

While our global presence is the guarantee of a strong customer support everywhere on earth, especially for global projects, the creation of Operating Areas with Operating Units proves to be the relevant response to local market needs.

BERNARD CONTROLS is structured in 4 Operating Areas focused on local customers' needs thanks to Operating Units in direct contact with clients everywhere on the globe.

A word from
CNPE (CNNE):

“Thanks to the strong support received from your teams. The existing problems of our project have been

successfully solved. When BERNARD CONTROLS technician was on site, he actively offered his expertise

to better solve the problem. His intervention implied as always qualified hard work. As a representative of CNPE's

purchasing Department, I want to extend my sincere appreciation for BERNARD CONTROLS' efforts. ”
